## Device User Agreement Policy and Protection Plan

Please review the terms of our Device User Agreement and Protection Plan (over). Upon acceptance of both, your child will be able to take their device home with them.

To the Parent/Guardian of:

- Distribution.** The East Irondequoit Central School District (the “District”) will loan a portable computing device to each student at the beginning of the school year (iPad or laptop).
- Ownership and Possession.** All devices loaned by the *District* are the property of the *District*. Students in grades 3 and up who have also purchased the Device Protection Plan available through the *District* will be permitted to take their devices home with them daily.
- Term of Agreement.** Devices will be distributed to students at the start of school in September, and will be collected from students at the end of the school year in June. Students will be able to use the devices throughout the entire school year. Students who withdraw, are suspended, or leave the program or the *District* must return their school device and any school accessories on or before the date that they leave. In the event a student does not return the device at the conclusion of a school year or earlier departure, the student account will be charged the full replacement value of the device (unless enrolled in the Device Protection Plan (the “Plan”) as detailed in Section 6).
- Use of device.** Educational content and resources will be delivered through the devices. Each day, students are expected to bring their device to school in working order and fully charged. Students, with support from parents, are expected to manage their device in a way that minimizes the likelihood of damage, loss, and theft. The *District* will provide apps that are essential for schoolwork. Students are allowed to load their own apps, however, students must do so in accordance with all district policies and guidelines and at their own personal expense. Students will be responsible for keeping their apps and data updated along with appropriately managing available storage space on the device for curricular content. It is the responsibility of the student to back up any personal content from the device before the date the device will be collected.

All use of the device must be consistent with *District* policies and the student Code of Conduct. While the devices are being utilized in the home, or in other locations off *District* property and not at a *District* function, parents and/or guardians are responsible for proper supervision of the student’s use of the device. The *District* directs parents/guardians to the following resources and articles regarding student cyber usage: <http://www.eastiron.org/ipad>.

- Cost of Use.** The *District* will purchase the device and all required apps. Families have the option of purchasing the *Plan* to offset unanticipated costs due to damage or theft of the device (*see section 6*).
- Device Protection Plan.** Parents may opt to purchase the *Plan* from the *District* to cover actual repair and/or replacement costs in the event a device is damaged, destroyed, or stolen. The *Plan* will defray the fees for damages or replacement to the student as outlined herein for the duration of the Term of this Agreement. The cost of the *Plan* is a \$25 nonrefundable fee. The *Plan* will cover costs for repair and/or replacement of a device due to accidental damage or theft after the payment of the appropriate initial fee. If the device is accidentally damaged, the student or parent must pay an initial (\$25 for 1<sup>st</sup> occurrence; \$50 for 2<sup>nd</sup> occurrence; \$75 for 3<sup>rd</sup> occurrence), and the *District* will pay any further repair/replacement cost. If the device is stolen, the student or parent must pay a \$40 initial fee and the *District* will pay the remainder of the replacement cost. If the cost of repair is less than the initial fee outlined herein, the actual charge will be charged to the student as the initial fee. Police reports must be filed by the student or parent for stolen devices. The *Plan* does not cover damage or loss due to dishonest, fraudulent, intentional, negligent, or criminal acts. This *Plan* will be null and void if the *District* determines a device has been removed from its protective case by someone other than the IT department. The *Plan* will cover up to 3 claims after which the device must stay at school. If students/parents do not enroll in the *Plan*, they are fully responsible for any repair and/or replacement costs in the same way they would be responsible for any other damaged or lost school property, such as textbooks.
