What is TalkingPoints?

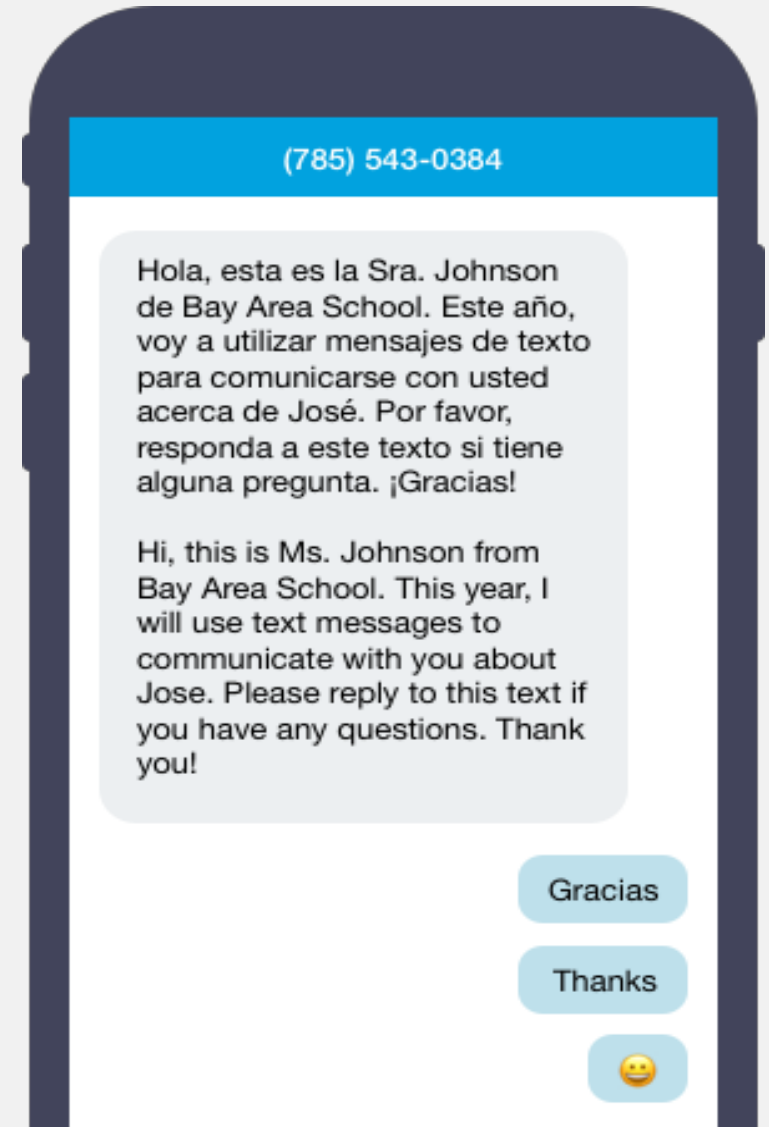

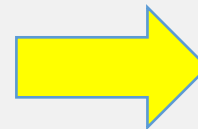

TalkingPoints is a free parent-teacher messaging app with translation. [East Irondequoit CSD](#) schools use TalkingPoints to communicate with you through a mobile app or text messages in your home languages.

You can communicate with teachers in your home language

- You will receive messages from us in your home language.
- You can reply back and send us a message in your home language, English or with an emoji 😊

*Your responses are only sent to the teacher and not to other families. Please give it a try!

Let's start communicating! Here are some examples of ways we can communicate. You can send us messages about:

Your child's progress

Hi Mrs. Jones, how is Maria doing in class?

Your child's behavior in class

Hi Mrs. Jones, is Maria engaging in the assigned work from class?

Homework assignments/projects

Hi Mrs. Jones, how long should Maria be spending on her homework every night?

How to work with your child at home

Hi Mrs. Jones, how can I help Maria improve her reading skills?

**We look forward to using TalkingPoints to
communicate with you!**
