Equipment

Lacrosse is a contact sport and incidental body contact and stick checks will occur. Controlled checking and body contact will be allowed BUT limited to the rules that apply to the specific age groups. All participants will be required to use the equipment noted below.

- NFHA/NCAA Approved Men's Lacrosse Stick – I would like to see all players own their own stick. The program can be provided a stick if needed. If you do buy your own stick you may want to cut the shafts shorter than the specifications noted below. Depending on the size of the child a shorter the stick may be is easier to control. However, before you do any cutting I would let the player use the stick for a few practices to see how he performs. When the players eventually get into competitive league play they will be required to play with a regulation length stick.
 - Short Sticks (Attack and Mid-field sticks are between 40" and 42" long and are measured from bottom of shaft to the top of the head)
 - Long Sticks (Defensive stick length no longer than the height of the player)
Not Required for 1st thru 4th Grades.
- Helmet (NOCSAE Approved)
- Mouth Guard. It is advised that you purchase a mouth guard that attaches to the helmet. ***Participants will not be allowed to play without a mouth guard.***
- Gloves
- Both Shoulder and Arm Pads
- Athletic Supporter and Cup
- Proper Footwear: Cleats required for outdoor play.
- Rib Pads (Optional, not provided by the program)
- Goalies: In addition to the equipment noted above goalies must wear:
 - Goalie Stick
 - Chest Protector
 - Throat Protector attached to the helmet.
 - Athletic Supporter and Cup
 - Shoulder Pads are optional
 - Goal Keepers lacrosse stick.
- **Water bottle for hydration.**
