Dear Parent:

We are continuing to update our transportation database regarding student information. We are aware that there are some students in the district with medical conditions that are regulated. We would like to ensure that we include all of the students in our database. These conditions include the following: ADHD, Asthma, Autism Spectrum Disorder, Diabetes, Seizure Disorder, and any other medically significant concerns. If your child has a medical condition that we may need to be aware of in an emergency situation, we request that you complete this form and mail it to:

Kathleen Callon, Director of Transportation
East Irondequoit Central School
125 Kane Drive
Rochester, NY 14622

As always, the District will maintain strict confidentiality regarding these issues.

Sincerely,
Kathleen F. Callon
Kathleen F. Callon
Transportation Director
