

SPIRIT, PRIDE, EXCELLENCE

SEPTEMBER 2020

- Eastridge student Devin Mori was accepted into Conference All State, for students with the highest adjudication scores in New York State. Although the 2020 NYSSMA festival will not be held in-person, Devin will participate in a virtual concert.
- Megan Wilson, a junior at Eastridge was honored to play “Taps” as part of the annual 9/11 remembrance ceremony at the Irondequoit Town Hall.
- Alyssa Rutherford’s 8th grade Living Environment class was featured on local news on September 25. Alyssa’s class has been part of a collaboration with the University of Rochester’s Warner School of Education discussing the Corona Virus. It was the final class of the unit and the students had the opportunity to meet and question two doctors who had been part of the lessons. They not only discussed the medical impact of the pandemic, but the social implications as well, especially the effects on minority communities.
- Eastridge held its National Honor Society induction ceremony on September 29, it had been rescheduled from last spring. Because of limits on the number of people allowed at gatherings the event only students were allowed to attend and was recorded so families could watch.
- A big thank you to the Information Technology staff who have been working after hours to conduct drive up help sessions for families having difficulty with their district device.
